Netflix

Does your child watch Netflix? You can add a PIN to your account so a 4-digit PIN must be entered to either play any TV show or movie above a selected maturity level (on all profiles) or to play a specific TV series or movie (on all profiles).

Alternatively, you can create up to 5 personalised profiles in your Netflix account for each member of the household. You can then choose a maturity level for each profile to control the TV shows and movies they can view.

For younger children, you could create a child profile which only includes content appropriate for children.

Guided Access with iPhone, iPad or iPod

Turn on Guided Access when you let your child access your device. Guided Access limits access to one app. This can be set up in settings. To find out how to set this up, follow these instructions
